

Dear Sirs:

XM radio is the answer to all of us who enjoy music while we drive to work or other destinations. The state of commercial radio in general these days is awful, all the commercials, shock jocks, foul language, endless chatter between on air personalities which is really of no interest to many.

I am willing to pay \$10 a month to hear music that I like, when I want to hear it.

Please reject NAB's petition 04-160

Thank You Bob Meyer W8DQ
